

I want to let you know why I have XM Radio and why I think the services they offer are of the highest qualities. XM Radio offers coast to coast coverage which means I do not have to keep looking for a new radio station everytime I get 50 miles outside of a city. The music and news they provide are of a quality that no local channel can ever touch. The new weather and traffic is up to date and available all the time. Due to the fact that these channels main purpose is to provide this I don't have to wait until a break from music on a local channel. Then most local channels only report the traffic maybe once or twice an hour, where it is done contiously on XM. On top of all this I pay for these services and what you are trying to do is not only wrong but it also violates the first amendment. Instead of voting affirmative on this petition why don't you urge the NAB to imporve their services to the public. Cut out all the commercials, because the public doesn't want to hear who is paying the radio station to stay in business. I strongly urge you to reject the NAB's Petition 04-160.
